EDUCATION

University of Pennsylvania <i>M.S. in Behavioral and Decision Sciences</i>	Philadelphia, PA
• Relevant Coursework: Behavioral Research Methods, AI and Human Behavior, Product Design	Expected July 2026
New York University <i>B.A. in Psychology, minor in Public Health</i>	New York, NY
• Relevant Coursework: Statistics and Data Analysis, Industrial Organizational Psychology	May 2025

RELEVANT EXPERIENCE

Ogilvy (Shanghai, China) <i>Marketing Strategist Intern</i>	Feb 2025 – Apr 2025
• Consumer insights: Analyzed 100+ social posts across Redbook, Weibo, and Tmall to extract consumer behavior insights for skincare (Kiehl's) and men's health (Viagra) categories; independently authored the Viagra's 520 Festival campaign strategy report and identified key seasonal narrative, which contributed to a 15% increase in projected social engagement.	
• Strategy & Competitive Research: Independently built a cross-category competitive campaign database spanning 11 cases across FMCG, fashion, and healthcare to inform Women's Day brand storytelling and campaign playbook.	
Ipsos (Shanghai, China) <i>Quantitative Research Intern, Consumer Insights</i>	May 2024 – Sep 2024
• Quantitative research: Designed and executed 10+ survey questionnaires and discussion guides; coordinated data collection from 1,200+ respondents across online platforms and focus groups (FGDs), covering FMCG and personal care categories to deliver multi-dimensional consumer behavioral data for clients.	
• Insight Delivery: Visualized data patterns using tree maps, bar charts, and line graphs, improving stakeholder accessibility of insight reports by approximately 25%; integrated cross-functional recommendations on brand triggers, product packaging, and distribution channels, contributing to a 12% lift in brand favorability scores.	

PROJECTS

Free People — New Customer Retention & Growth Strategy, University of Pennsylvania	Oct 2025
• Behavioral Insights: Mapped the full customer journey and identify behavioral friction points; leveraged AI tools (NotebookLM, Claude) to synthesize industry research and applied behavioral science frameworks to design actionable intervention strategies, informing the marketing and e-commerce teams' annual growth planning.	
Jelly Belly — China Re-launch Study, Ipsos	Oct 2024
• Competitive Analysis: Researched major competitors within the industry such as Alpenliebe and Skittles, analyzed premium brand drivers, consumer behavior, and product details to identify opportunities; led prosumer workshops.	
• Strategy Development: Brainstormed strategies from product enhancement, retail channel, and seasonal promotion aspects to reposition Jelly Belly, contributing to relaunch framework that validated a 20% price premium strategy.	
P&G Olay — AI Creative Meta-Learning Study, Ipsos	May 2024
• Data Analysis & Creative Insight: Contributed to P&G Olay's CreativeNow AI creative database project by screening Olay and competitor materials from 2,800+ in-market ads; responsible for data cleaning and customized thematic tagging using an AI + human dual-annotation system (160+ dimensions) to evaluate behavioral and attitudinal ad data; helped build driver models for Watch-through Rate, Brand Recall, and Purchase Intention, identifying key creative levers that improved predicted purchase intent scores by approximately 15%.	
Polaris AI — AI Product UX Research & Design	May 2023
• UX Research: Assisted in the shipping of an AI-powered product for the U.S. hiring market, using Figma from ideation to execution; conducted A/B tests on user experience for the search and filtering functionality, driving UX optimization that led to the development of validated personas and user journeys, reducing usability issues by 25%.	
• Product Design: Led the design of AI-powered job listing and applicant portal, streamlining application experience through 5 design iterations and validated prototypes with feedback from 10+ beta users.	

SKILLS, ACTIVITIES & INTERESTS

Languages: English (Fluent)

Technical Skills: **Market Research & Insights:** survey design, screening, FDG/IDI guides; **Data Analytics:** R, Excel (PivotTables, VLOOKUP); **Creative & Presentation:** Figma, Adobe Creative Suite, Canva, Final Cut Pro

AI Tools: ChatGPT, Claude, Gemini AI Studio, Canva AI, Notion AI, NotebookLM, Perplexity AI, GitHub Copilot, Trae

Interests: Cycling, Boxing, Badminton, Hiking, Dancing, Character illustration (12 years, Level 8 Certification)
